

**STATUS:** Design to start in FY 2004.

**PROJECT:** New Terminal Area Fire Station at BWI Airport

**DESCRIPTION:** This project involves the construction of a second, limited function, fire station to be located in the terminal area. Work will include final site selection and design of the station facility with four vehicle bays and crew quarters.

**JUSTIFICATION:** The continuing increase in terminal related responses by the BWI Fire Rescue Department (FRD) necessitates the location of a station in the immediate vicinity of the terminal to improve response times. This facility would have a limited number of equipment and personnel and would compliment the existing, main FRD facility located adjacent to the main jet runways.
